

Aishaura Microgreens

Fresh · Organic · Nutrient-Dense · Same Day Harvest

About Us

At Aishaura Microgreens, we grow premium, organic, nutrient-rich microgreens. Our mission is to deliver health, freshness, and elegance to every plate. We believe in sustainable farming, eco-friendly packaging, and local supply for maximum freshness.

Why Microgreens?

Microgreens are young vegetable greens harvested just after the first leaves develop. They contain 4–40x more nutrients than mature vegetables. Rich in antioxidants, vitamins, and minerals, they are a superfood widely used in fine dining for flavor and plating.

Nutrient	Microgreens	Mature Greens
Vitamin C	Up to 40x higher	Normal
Antioxidants	20x higher	Normal
Nutrient Density	Rich & concentrated	Standard

Our Product Portfolio

Variety	Taste Profile	Use Cases	Shelf Life
Sunflower	Nutty, crunchy	Salads, wraps	6–7 days
Radish	Peppery, spicy	Soups, sushi	5–6 days
Pea Shoots	Sweet, tender	Stir-fry, pasta	6–7 days
Mustard	Sharp, pungent	Burgers, curries	5–6 days
Broccoli	Mild, earthy	Smoothies, salads	6–7 days
Mix Packs	Balanced flavors	Bowls, platters	5–6 days
